

## **Swimming Pool Fills**

### **Sewer Adjustment on Swimming Pool Fill**

Any residential sewage user with an existing swimming pool shall be permitted to fill the pool from their residential metered water one (1) time each year between April 15 and May 15 without the assessment of the sewer charge on the gallons used to fill the pool.

Any residential sewer user desiring to fill a swimming pool between April 15 and May 15 without assessment of a sewer charge on the gallons used shall advise the Clerk-Treasurer/Utility office and state the user name, address, and the present reading on the water meter. The user then will have seventy-two (72) hours to fill the pool at which time the resident shall notify the utility office as to the final reading on the water meter. If all these conditions are met, the residential customer shall not be assessed a sewer charge on the gallons used to fill the pool.

After May 15, if the residential sewage user qualifies for Summer Sewer Relief, the Relief will apply for the gallons used to fill the pool for the summer period.

### **Filling New Swimming Pools**

Services connected with the filling of a swimming pool as preformed by the Water Department, including water consumption, shall be charged \$150 and shall be payable in advance. Only pools within 300' of a hydrant will be filled.
