To: Local News Media / Residents of the City of Angola

Subject: Public Service Announcement
(Snow Removal Ordinance to Facilitate Street Maintenance)

City Police are announcing that Angola's Routine Snow Removal Ordinance will be in effect due to the amount of snowfall.

This requires owners, drivers, or operators of any vehicle parked on any street, alley, public square, or designated public parking lot move or cause to be moved the said vehicles each 24 hours to allow for snow removal.

The criteria for the issuance are based on a snow fall of more than 4 inches and the decision to enforce will be made by the Chief of Police and City Street Superintendent.

Procedure:

- First Violation of the 24-hour period will be cause for a red tag being issued.
- Violation of the 24-hour red tag will be cause for removal. Towing and removal at owner's expense.

The City encourages public cooperation so that safe and clear routes can be maintained during the winter season.

There is an ordinance for snow removal from sidewalks 12 hours after the event is over. Please remove snow from your sidewalks in front of your residence or business.

Thank you for your attention in this matter.
