### How to get to the Video Tutorials on the eGov Website

Here are some written instructions that will help get to the video tutorials on the eGov website. These tutorials cover most of the how tos for managing all areas on the City Website.

1. Go to www.angolain.org/manager then log into the backend editor
2. Then click on Assistance button on left side of the screen
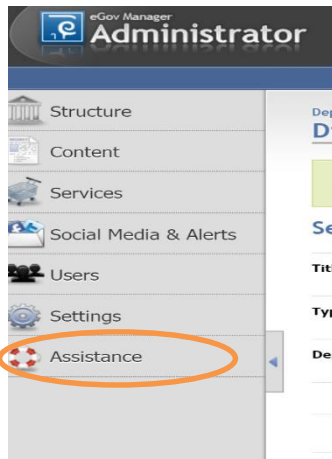

3. From here you can navigate to eGov Training Videos or ask eGov a question if you perfer
4. Click on eGov Training videos to take you to the video page.
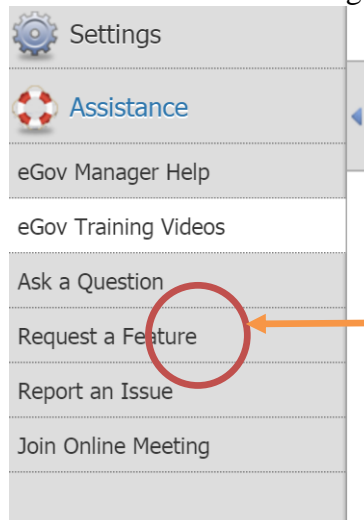

5. These should give you directions on how to do most of the basic changes and additions that you might have for your page. If you have more advanced questions you can either hit ask a question to eGov or see IT department.
